REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose a process of extracting oxygenates from a hydrocarbon stream by feeding separately methanol and water in an extraction step.

Becker (DE 19911910 A1) discloses a process for separating oxygenates from a hydrocarbon feed by utilizing a solvent mixture comprising water and methanol. Becker does not disclose methanol and water are separately added to the extractive column.

Applicants have shown that a better result is obtained when adding methanol and water separately compared adding methanol and water as a mixture.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TAM M. NGUYEN whose telephone number is (571)272-1452. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on (571) 272-1444. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
